Mounting & connecting

Hardware Quick Reference

LANCOM 1800EFW

① Ant 1

ETH 4   ETH 3   ETH 2   ETH 1   WAN   SFP   USB   **① Ant 2**   Config   DC 12 V

② ③ ④ ⑤ ⑥ ⑦
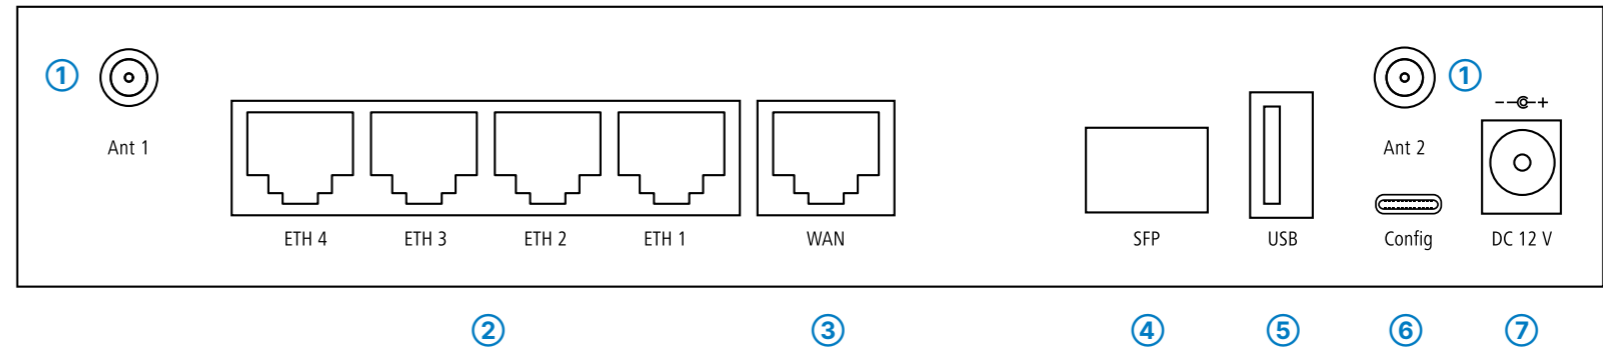

① Wi-Fi antenna connectors
Connect the supplied Wi-Fi antennas to the connectors
Ant 1 / Ant 2.

② Ethernet interfaces
Use the cable with the kiwi-colored connectors to connect one of the
interfaces ETH 1 to ETH 4 to your PC or a LAN switch.

③ WAN interface
Use the cable with the green connectors to connect the WAN interface
to your WAN modem.

④ SFP interface
Insert a suitable LANCOM SFP module (e.g. 1000Base-SX or
1000Base-LX) into the SFP port. Choose a cable compatible with the
SFP module and connect it as described in the SFP module's mounting
instructions
www.lancom-systems.com/SFP-module-MI.
SFP module and cable are not included.
⑤ USB interface
Connect a USB data medium or a USB printer to the USB interface.
(cable not supplied)

⑥ Serial USB-C configuration interface
A USB-C cable can be used for optional configuration of the device on
the serial console. (cable not included)

⑦ Power
Use only the supplied power adapter!

Before initial startup, please make sure to take notice of the information regarding the intended use in the enclosed installation guide!

Operate the device only with a professionally installed power supply at a nearby power socket that is freely accessible at all times.

The power plug of the device must be freely accessible.

Please note that support for third-party accessories is not provided.

ⓘ

Please observe the following when setting up the device
→ When setting up on the table, use the enclosed self-adhesive rubber pads, if applicable.
→ Do not rest any objects on top of the device and do not stack multiple devices.
→ Keep all ventilation slots of the device clear of obstruction.
→ Rack installation with the optional LANCOM Rack Mount / Rack Mount Plus
 (separately available)

LED description & technical details

LANCOM 1800EFW

Power | Online | SFP | WAN | ETH 1 | ETH 2 | ETH 3 | ETH 4 | WLAN 1 | WLAN 2 | VPN | Reset

A | B | C | D | E | F | G | H

Hardware Quick Reference

LANCOM 1800EFW

A Power

Off	Device switched off
Green, permanently*	Device operational, resp. device paired / claimed and LANCOM Management Cloud (LMC) accessible
Red/green, blinking	Configuration password not set. Without a configuration password, the configuration data in the device is unprotected.
Red, blinking	Hardware error
Red, blinking slowly	Time or charge limit reached/error message occurred
1x green inverse blinking*	Connection to the LMC active, pairing OK, device not claimed
2x green inverse blinking*	Pairing error, resp. LMC activation code not available
3x green inverse blinking*	LMC not accessible, resp. communication error

B Online

Off	WAN connection inactive
Green, blinking	WAN connection is established (e.g. PPP negotiation)
Green, permanently	WAN connection active
Red, permanently	WAN connection error

C SFP

Off	SFP deactivated in the configuration or SFP module present, no connection to network device
Red, permanently	SFP enabled in the configuration but no SFP module present
Green, permanently	SFP module present, connection to network exists, no data transmission
Green, blinking	Data transmission
Red, blinking	SFP module present, hardware error

D WAN

Off	No connection (no link)
Green, permanently	Network connection ready (link)
Green, flickering	Data transmission

E ETH1 - ETH4

Off	No connection (no link)
Green, permanently	Network connection ready (link)
Green, flickering	Data transmission

F WLAN 1 / WLAN 2

Off	No Wi-Fi network defined or Wi-Fi module deactivated. The Wi-Fi module is not transmitting beacons.
Green, permanently	At least one Wi-Fi network is defined and Wi-Fi module activated. The Wi-Fi module is transmitting beacons.
Green, blinking	DFS scanning or other scan procedure
Red, blinking	Hardware error in Wi-Fi module

G VPN

Off	No VPN connection active
Green, permanently	VPN connection active
Green, blinking	Establishing VPN connection

H Reset

Pressed up to 5 seconds	device restart
Pressed until first flashing up of all LEDs	configuration reset and device restart

Hardware

Power supply	12 V DC, external power adapter For an overview of the power supplies compatible with your device, see www.lancom-systems.com/kb/power-supplies.
Environment	Temperature range 0 – 35 °C; humidity 0 – 95 %; non-condensing
Housing	Robust synthetic housing, rear connectors, ready for wall mounting, Kensington lock; (W x H x D) 210 × 45 × 140 mm
Fan	1 quiet fan

Interfaces

WAN	10 / 100 / 1000 Mbps Gigabit Ethernet
ETH	4 individual 10 / 100 / 1000-Mbps Fast Ethernet ports; operate as switch ex-factory. Up to 3 ports can be switched as additional WAN ports.
USB	USB 2.0 Hi-Speed host port for connecting USB printers (USB print server), serial devices (COM-port servers), or USB data media (FAT file system)
SFP	Socket for small form-factor pluggable Gigabit-Ethernet transceiver (mini-GBIC). Compatible with optional LANCOM SFP modules for optical connections. Set as a LAN port ex-factory, can be configured as a WAN port.
Wi-Fi	2 SMA connectors for the supplied dual-band Wi-Fi antennas; Frequency bands: 2400-2483.5 MHz (ISM) and 5150-5725 MHz (country-specific restrictions possible); Radio channels 2.4 GHz: Up to 13 channels, max. 3 non-overlapping (2.4 GHz band); Radio channels 5 GHz: Up to 26 non-overlapping channels (available channels depending on country-specific regulation and associated with automatic, dynamic DFS channel selection)
Configuration interface	Serial USB-C configuration interface

WAN protocols

Ethernet	PPPoE, Multi-PPPoE, ML-PPP, PPTP (PAC or PNS) and IPoE (with or without DHCP)

Package content

Cables	2 Ethernet cables, 3m (LAN: kiwi-colored connector; WAN: green connector)
Antennas	2 external 3 dBi dipole dual band antennas
Power adapter	External power adapter

*) The additional power LED statuses are displayed in 5-seconds rotation if the device is configured to be managed by the LANCOM Management Cloud.
